SUMMARY

As a Frontend and WordPress Developer with experience in building websites that work on all devices using HTML, CSS, JavaScript, Bootstrap, and WordPress. I know a bit of PHP for backend tasks and enjoy making websites easy to use. I am known for writing clear code, fixing problems, and working well with teams to meet deadlines.

PROJECTS

• BookShop Website

Create a Book Shop with e-commerce functionality and responsive websites with HTML, CSS, JavaScript, Bootstrap, and PHP, using MySQL for database management and designs to create user-friendly, attractive interfaces.

• Portfolio Website

Built responsive websites with HTML, CSS, JavaScript, and Bootstrap, and designed easy-to-use, attractive interfaces.

• Weather with API

Used an API to get real-time weather data and display it on the website.

• WordPress with Elementor

Develop WordPress websites with Elementor, creating responsive, user-friendly designs and managing plugins for added features.

SKILLS

- HTML, CSS, Bootstrap, JavaScript, WordPress, MS Word, Php
